A GREAT PLACE TO LEARN

## **Principal's Message**

Dear Students and Staff,

Once again I am very proud of our accomplishments during this school year. It is in keeping with the saying "Together we can achieve the extraordinary".

Next school year, we will embark upon the journey of implementing our Whole School Reform Model, America's Choice. I believe that we will indeed achieve to the highest levels if we unite together and strive for excellence in all that we do!

**Dr. Craig Browne, Principal**

**Mrs. Kriss Kemp-Graham**

## **Vice-Principal's Message**

Congratulations, Class of 2001. When you leave Harold Wilson , reflect and think of the good times that you have had, think of all of the wonderful things you have learned about school, your life and the world—Take these mental images with you. High School will be very challenging and exciting. Many opportunities for growth will be placed at your feet, do not step over them, bend down and pick them up!!! Always accept the challenge, never accept defeat. Don't let others define you or your experiences. As you embark on the next milestone in your life..stay focused, dedicated and always remember to KEEP YOUR EYES ON THE PRIZE. May you all continue to be safe and always know that you are truly loved at Harold Wilson!!!!!!

Advancements in technology rapidly changed the way we communicated, worked, learned, and relaxed. Groundbreaking research and development brought us a whole new way to look at our past, present, and future.

**Big-Boned Sue** The past shed light on our future with the discovery of a **T. Rex Named Sue**, 67 million years after her death. Named after fossil hunter **Sue Hendrickson**, Sue was the largest *Tyrannosaurus rex* fossil ever found. On the other end of the size chart, microbiologists discovered 250 million-year-old bacteria imbedded in salt crystals below the desert floor.

**What a SIGHT!** A new laser-assisted procedure called **Lasik** helped thousands chuck their glasses. Genetic disease research got a big boost when **J. Craig Venter, Francis Collins**, and the **Human Genome Project** team decoded human **DNA**.

## Friends For Life

The number of species on the endangered list ballooned to over 1,000, with nearly 100 more becoming extinct every day. We worked to reverse this man-made trend by reintroducing many species, such as wolves, sea turtles, and golden lion tamarins, back to their natural environments.

As millions watched, Australian Aborigine Olympic sprinter **Cathy Freeman** lit the Olympic cauldron at the 2000 games in **Sydney, Australia**. This important moment showed the world that Australia had accepted its indigenous people, the **Aborigines**. The 27-year-old went on to win a gold medal in the 400-meter event. (Beep Beep! Did you know that *Road Runner* is her favorite cartoon character?)

**Games We Play** The United States hit golden homers in both men's baseball and the Olympics' very first women's softball competition. The U.S. men's basketball Dream Team barely broke away with the gold, defeating **Lithuania** only in the final seconds. ## champions

From match point to point guard, athletes kept us on the edges of our seats as we cheered, applauded, and celebrated their seemingly boundless megatalents.

**Victory Over Adversity** Bike racer Lance Armstrong won his second *Tour de France* and an Olympic bronze medal after defeating cancer just four years earlier. Another hero, Pittsburgh Penguins hockey ace Mario Lemieux, skated out of retirement and back to the rink after a successful battle against Hodgkin's disease. The Paralympics, broadcast from New Zealand, showed us again that "disabled" athletes aren't disabled at all.

Besides being a golf genius, **Tiger Woods** took time to help others. In 1996, he started the **Tiger Woods Foundation** to support people of all races and backgrounds reach their highest potential. Some of his cool projects: golf clinics for inner-city youth and Target House, a place for families of sick children.

**Top Team Talent:** The Baltimore Ravens soared over the NY Giants with a 34-7 victory at **Super Bowl XXXV**. Hometown rivalry peaked when the Yankees celebrated their third straight **World Series**, trampling the Mets 4 - 2. The L.A. Lakers won the NBA Finals over the **Indiana Pacers**, with Shaquille O'Neal and Kobe Bryant leading their team to victory, and the Houston Comets captured their fourth straight WNBA championship with a win over the New York Liberty. On the hockey front, the New Jersey Devils shot past the Dallas Stars, 4 - 2.

**Daring Isaac Newton**  
Extreme sportsters continued to defy gravity. At competitions such as Gravity Games and the X-Games, we went wild over events like trick biking, snowboarding, motocross, in-line skating, skateboarding and even street luge. Helmets, please!

**Superstar Sisters!** Venus and Serena Williams made history as the first sisters to each win a **Grand Slam**. The pair went on to win their third Grand Slam doubles title and an Olympic gold in women's doubles. What do you do for an encore?!

## talk of the year

We went retro, high-tech, and hip, surrounded by a popular culture that embraced a wide range of hobbies and new products. In our daily lives, we carved out our niches with activities that were educational, artistic, and pure fun!

**They Are Up** The nostalgia craze brought us **scooters**, and we went gaga over these wheels, shelling out anywhere from \$50 to \$2,500! Another retro win was the unveiling of the 1940's retro-style **PT Cruiser**, the biggest launch in Chrysler's history. The new **Sony Playstation 2** featured the coolest in computer animation, and thousands of game geeks camped outside retail stores, hoping to get their hands on the first release. Another new toy, a battery-operated robotic puppy, barked its way into homes from Tokyo to Tallahassee.

**Quidditch, Anyone?** We went nuts over Harry, and thousands of us lined up the night of July 7<sup>th</sup> to score a copy of **J.K. Rowling's** fourth installment, **Harry Potter and the Goblet of Fire**. Although some parents and teachers questioned the concept of magic, no one could argue with students' newfound love of reading!

### MOVIN' AND GROOVIN' WITH THE TIMES

The tunes and styles may change, but dance is here to stay.

**1500's** Elizabethan

**1800's** Social dance

## Hands Around the Word

**Prince William** wasn't the only one rolling up his sleeves and volunteering! Young people all over the world pitched in, giving their time and energy to lots of great causes, from helping out at the **Special Olympics** to bringing art into their neighborhoods. What inspired them to volunteer for community service? Just a great feeling of satisfaction from helping others!

**A Man Among Princes** When Prince William, eldest son of Prince Charles and the late Princess Diana, turned 18 this year, he took a 10-week break from royalty to volunteer for community and environmental projects in Chile. At school, he excelled in art history, geography, biology, swimming, soccer, and polo.

Teenagers expressed their individuality and creativity in activities from dance to digital art. How were you unique?

**Different Notes for Different Folks** Styles all their own, you bet. But every one of these pop singers shares the gift of super high energy, all out performance, and great moves!

**Teen TV** TV shows starring teens were hot again this year. We grooved on *Malcolm in the Middle*, *Buffy the Vampire Slayer*, *Popular*, *Felicity*, *Moesha*, and *Dawson's Creek*. And fans rallied to give *Felicity* a second life.

Ron Howard, director of *The Grinch*, started his acting career when he was only six, with leads in *The Andy Griffith Show* and later in *Happy Days*. Another young talent, 13-year-old Haley Joel Osment, star of last year's *Pay It Forward*, had already appeared in four major films when he was nominated for an Oscar for *The Sixth Sense* at age 11.
